Remote Viewing Jun 13 2022 Is it possible to see across space and time? Even those who accept that humans can reach beyond the conventional five senses typically think of psychics as "special" or "gifted" with unusual abilities. But David Morehouse teaches otherwise—all human beings, including you, have the innate capacity for remote viewing. David Morehouse was trained by the U.S. government in remote viewing—an exact scientific protocol for tapping the human power to gather information across space and time. In this comprehensive manual, he has taken his military training as an "operational" remote viewer and turned it into a step-by-step training system—one that teaches any serious reader how to unlock their natural abilities and become more than the physical world allows. Remote Viewing includes more than just a method for gathering information. It is a transformational tool instilling within you the absolute and irrefutable evidence that you are more than human—that you are extraordinarily human. As you gain experience and confidence as a viewer, you will tap into the collective unconscious that connects you to everything and everyone in the universe. Through David Morehouse's training, you will learn to touch the infinite source of life and knowledge that spiritual masters throughout human history have sought. David Morehouse's superiors in the DIA/CIA called him "the most exceptional candidate ever to have grasped this difficult intelligence collection methodology." What sets him apart as a teacher is his unparalleled ability to present the complexities of remote viewing in an accessible, logical, and artful manner. As more than 23,000 students have already discovered, David Morehouse has set a new and brilliant standard for teaching the scientific protocol of remote viewing. "You have the ability to do this," Morehouse says. "Something extraordinary is absolutely possible in your life." Now for the first time, he brings you his method for taking your first step into your ultimate potential in a single volume: Remote Viewing: The Complete User's Manual for Coordinate Remote Viewing, which also include a cool-down audio track. David Morehouse has found that this psychoacoustic "pink noise" track is especially effective for helping us enter the brainwave state of relaxed awareness needed for remote viewing.

As we give and receive Christmas gifts, it is incredibly important to remember that the best Christmas gifts are wrapped in heaven. Unfortunately, sometimes we concentrate so much on the gifts we want to give to and receive from each other that we miss the special gifts Christmas has for us. Christmas has some amazing gifts for us, but the truth is that we need the miracle of God's grace to see them, feel them, hear them, wrap our arms around them, and celebrate them. This study asks a very personal question: "What are the gifts you would really like to receive from Christmas this year?" And that is what this book is all about: our thoughts and ruminations about the amazing, life-changing gifts Christmas has for us! This Advent study has five sessions--one for each Sunday of Advent and one for Christmas. The Leader Guide is designed to be used alongside the DVD. It enables a small group leader to facilitate a weekly discussion about All I Want for Christmas using the five DVD sessions as its starting point. Questions and activities guide group participants to discuss and understand each chapter in greater depth. The DVD and Leader Guide are not a substitute for the book, but a guide for discussing the book in small groups.
