Spanish in New York Mar 18 2020 Spanish in New York is a groundbreaking sociolinguistic analysis of immigrant bilingualism in a U.S. setting. Drawing on one of the largest corpora of spoken Spanish ever assembled for a single city, Otheguy and Zentella demonstrate the extent to which the language of Latinos in New York City represents a continuation of structural variation as it is found in Latin America, as well as the extent to which Spanish has evolved in New York City. Their study, which focuses on language contact, dialectal leveling, and structural continuity, carefully distinguishes between the influence of English and the mutual influences of forms of Spanish with roots in different parts of Latin America. Taking variationist sociolinguistics as its guiding paradigm, the book compares the Spanish of New Yorkers born in Latin America with that of those born in New York City. Findings are

grounded in a comparative analysis of 140 sociolinguistic interviews of speakers with origins in Colombia, Cuba, Dominican Republic, Ecuador, Mexico and Puerto Rico. Quantitative analysis (correlations, anovas, variable hierarchies, constraint hierarchies) reveals the effect on the use of subject personal pronouns of the speaker's gender, immigrant generation, years spent in New York, and amount of exposure to English and to varieties of Spanish. In addition to these speaker factors, structural and communicative variables, including the person and tense of the verb and its referential status, have a significant impact on pronominal usage in New York City.

The Answers Book for Kids Volume 2 Nov 13 2019 Dinosaurs are fascinating creatures that kids simply adore, and even the youngest believer can recite the biblical story of Noah and his ark. Now discover how to answer some of kids' most interesting questions about dinosaurs and Noah's ark like: How did all the dinosaurs fit on the ark? How did Noah keep the animals on the ark from eating each other and his family? Where did all the water go after the Flood? Why aren't there fossils of humans from Noah's flood? Answers are important. If children aren't given answers to their questions about the Bible and the history it reveals, they cannot defend their faith against a secular worldview in a fallen world. The new Answers Book for Kids series is a unique collection from Ken Ham and the creative team at Answers in Genesis. This is a necessary resource in your homeschool or Church's Sunday School. This is the 2nd book of a 4 volume set.

Epidemiologic Field Methods in Psychiatry Dec 15 2019 *Epidemiologic Field Methods in Psychiatry: The NIMH Epidemiologic Catchment Area Program* focuses on the methodology employed in the National Institute of Mental Health (NIMH) Epidemiologic Catchment Area (ECA) Program. The selection first elaborates on the historical context, major objectives, and study design and sampling the household population. Topics include the development of the ECA program, DIS instrument, program design, general issues in sampling community resident populations, household and respondent eligibility, household and respondent selection, weighting, and variance estimation. The manuscript then examines institutional survey and the characteristics, training, and field work of interviewers. Discussions focus on the changing nature of institutions, value of the institutional component, institutions included in institutional stratum, interviewer recruitment and selection, demographic characteristic of interviewers, and field work. The publication ponders on nonresponse and nonresponse bias in the ECA surveys, data preparation, and proxy interview, as well as quality of proxy data, item nonresponse, editing and coding, data entry and data cleaning, understanding nonresponse, and assessment of evidence for nonresponse bias. The selection is a valuable source of information for psychiatrists and readers interested in the Epidemiologic Catchment Area (ECA) Program.
