Service-Learning Essentials Apr 18 2020 Service-Learning Essentials is the resource you need to help you develop high-quality service-learning experiences for college students. Written by one of the field's leading experts and sponsored by Campus Compact, the book is the definitive work on this high-impact educational practice. Service-learning has been identified by the Association of American Colleges and Universities as having been widely tested and shown to be beneficial to college students from a wide variety of backgrounds. Organized in an accessible question-and-answer format, the book responds clearly and completely to the most common questions and concerns about service-learning. Each chapter addresses issues related to individual practice as well as to the collective work of starting and developing a service-learning center or program, with examples drawn from a variety of disciplines, situations, and institutional types. The questions range from basic to advanced and the answers cover both the fundamentals and complexities of service-learning. Topics include: Determining what service-learning opportunities institutions should offer How to engage students in critical reflection in academic courses and in cocurricular experiences Best practices for developing and sustaining mutually beneficial campus-community partnerships Integrating service-learning into the curriculum in all disciplines and at all levels, as well as various areas of student life outside the classroom Assessing service-learning programs and outcomes The dilemmas of service-learning in the context of power and privilege The future of service-learning in online and rapidly globalizing environments Service-learning has virtually limitless potential to enable colleges and universities to meet their goals for student learning while making unique contributions to addressing unmet local, national, and global needs. However, in order to realize these benefits, service-learning must be thoughtfully designed and carefully implemented. This easy-to-use volume contains everything faculty, leaders, and staff members need to know about service-learning to enhance communities, improve higher education institutions, and educate the next generation of citizens, scholars, and leaders.

Theory Essentials for Today's Musician (Textbook) Nov 06 2021 Theory Essentials for Today's Musician offers a review of music theory that speaks directly and engagingly to modern students. Rooted in the tested pedagogy of Theory for Today's Musician, the authors have distilled and reorganized the concepts from the thirty-three chapters of their original textbook into twenty-one succinct, modular chapters that move from the core elements of harmony to further topics in form and 20th-century music. A broad coverage of topics and musicals styles—including examples drawn from popular music—is organized into four key parts: Basic Tools Chromatic Harmony Form and Analysis The 20th Century and Beyond Theory Essentials features clear and jargon-free (yet rigorous) explanations appropriate for students at all levels, ensuring comprehension of concepts that are often confusing or obscure. An accompanying workbook provides corresponding exercises, while a companion website presents streaming audio examples. This concise and reorganized all-in-one package—which can be covered in a single semester for a graduate review, or serve as the backbone for a briefer undergraduate survey—provides a comprehensive, flexible foundation in the vital concepts needed to analyze music. Subtraction Practice Workbook Aug 03 2021 Description This workbook contains 60 subtraction facts worksheets with answers. Mastering the basic math facts develops automaticity in kids. Automaticity is the ability to do things without occupying the mind with the low-level details that are required; this is usually the result of consistent learning, repetition, and practice. Each worksheet has designated room at the top for students to write their names and for teachers or parents to record the score and time. All of the exercises are numbered for easy reference. All of the answers are tabulated in the back of the book, also with numbers so that teachers or parents can easily check the solutions. It is recommended for students to attempt 1 set daily for consistent practice. Book starts with addition strategies to help students grasp basic concepts and get started.

Education for Library Cataloging Nov 25 2020 Examine cataloging and classification training programs around the world Education for Library Cataloging: International Perspectives examines the global development of educational programs for cataloging and classification in the library and information field. Library school faculty and professional librarians from more than 20 countries discuss a wide range of topics, including formal school and continuing education of catalog librarians, education and training for paraprofessional staff in cataloging and technical services, changes in library school programs, and metadata and information organization instruction. Faculty members and seasoned librarians from Europe, Africa, Asia, Australia, Latin America, and the Middle East present case studies and overviews of library and information school programs, bibliographies of cited works in both Western and non-Western language literature, and plenty of helpful tables and charts. Articles presented in Education for Library Cataloging: International Perspectives are organized geographically to make it easier to check which countries are covered in each region, and to determine regional similarities and differences. Political, historical, cultural, religious, and linguistic factors were also considered to demonstrate the wide range of educational efforts and programs to cultivate cataloging professionals all over the world. Topics examined in Education for Library Cataloging: International Perspectives include: * education and training development for librarians in the University of Botswana Library * the library science school curricula in the Cross River State of Nigeria * the training of students in cataloging via distant education in South Africa * education programs in China * the education for knowledge organization (including cataloging and classification) in India * the current status of cataloging education in Japan * on the job training of catalog librarians in South Korea * the education for cataloging in Australia * how catalog librarians are trained in Germany and Austria * recent changes to the library education system in Poland * a critical study of cataloging instruction within the library and information science programs in Spain * a recent survey of graduate education and training for cataloging and classification in the United Kingdom * an overview of the education for cataloging and classification in Mexico * the current status of cataloging and classification education in Egypt * recent changes to cataloging teaching in Israel * the continuing education for catalogers in Saudi Arabia * and much more Many of the articles presented in Education for Library Cataloging: International Perspectives document the initial efforts to introduce education for cataloging in particular countries, including Egypt and Japan. This book is an invaluable resource for library and information school educators, administrators, and students.
