A blue crayon mistakenly labeled as "red" suffers an identity crisis in this picture book by the New York Times–bestselling creator of *My Heart Is Like a Zoo*. This funny, heartwarming, colorful picture book about finding the courage to be true to your inner self can be read on multiple levels, and it offers something for everyone. Funny, insightful, and colorful, *Red: A Crayon's Story* is about being true to your inner self and following your own path despite obstacles that may come your way.

Red will appeal to fans of Lois Ehlert, Eric Carle, and *The Day the Crayons Quit*, and makes a great gift for readers of any age! Red has a bright red label, but he is, in fact, blue. His teacher tries to help him be red (let's draw strawberries!), his mother tries to help him be red by sending him out on a playdate with a yellow classmate (go draw a nice orange!), and the scissors try to help him be red by snipping his label so that he has room to breathe. But Red is miserable. He just can't be red, no matter how hard he tries! Finally, a brand-new friend offers a brand-new perspective, and Red discovers what readers have known all along. He's blue! As the world becomes more globalized, student populations in educational settings will continue to grow in diversity. To ensure students develop the cultural competence to adapt to new environments, educational institutions must develop curriculum, policies, and programs to aid in the progression of cultural acceptance and understanding.

Multicultural Instructional Design: Concepts, Methodologies, Tools, and Applications is a vital reference source for the latest research findings on inclusive curriculum development for multicultural learners. It also examines the interaction between culture and learning in academic environments and the efforts to mediate it through various educational venues. Highlighting a range of topics such as intercultural communication, student diversity, and language skills, this multi-volume book is ideally designed for educators, professionals, school administrators, researchers, and practitioners in the field of education. This integrative book is like having a wise supervisor in the room with you. Stop "fixing" your clients--engage them in their own healing through the Four-Dimensional Wheel of Sexual Experience. Gina Ogden guides you in helping your clients explore the full range of their sexual issues and challenges—including couple communication, erectile dysfunction, vaginismus, low desire, affairs, trauma, religious proscriptions, pornography use, and more. Part I offers strategies that correspond to the core knowledge areas required for certification as a sexuality professional, while Part II puts these innovative approaches into action through following five case examples from seasoned practitioners. The numerous user-friendly elements, such as quizzes, worksheets, and "hot tips," will help you see the larger picture of an issue, become fluent with a diversity of sexual identities and behaviors,

and expand your ability to offer safe, ethical, evidence-based therapy. Innovation for Entrepreneurs presents a powerful but easy to apply toolkit for innovation, based on Professors Meyer and Lee's decades of experience as company founders and innovators for corporations around the globe. This textbook includes guidance in developing new product and service ideas with genuine impact, building teams around these ideas, understanding customers' needs, translating these needs into compelling product and service designs, and creating initial prototypes. It also helps students learn how to scope and size target markets and position an innovation successfully relative to competitors. These methods are fundamental for any new, impactful venture. Story about the chain of events happening on a farm when a single leaf blows into the barn. Everyone wants to be a market leader. Market leaders enjoy financial success, create wealth and have recruiting, selling and market power that is almost always disproportionate to their actual product and solution advantages. In fact, many competing executives have been driven crazy by this, lamenting on how their product was better, but the market didn't seem to care. Launching to Leading explains how and why market leaders succeed in breaking through and leading in today's crowded markets, and reveals how to apply this to your business to take you from Launching to Leading and beyond. a Cookie, the young host is again run ragged by a surprise guest. Young readers will delight in the comic complications that follow when a little boy entertains a gregarious moose. The *If You Give...* series is a perennial favorite among children. With its spare, rhythmic text and circular tale, these books are perfect for beginning readers and story time. Sure to inspire giggles and requests to "read it again!" Other favorites in Laura Numeroff and Felicia Bond's bestselling series include: *If You Give a Cat a Cupcake* *If You Give a Dog a Donut* *If You Give a Mouse a Cookie* *If You Give a Pig a Pancake* *If You Give a Pig a Party* Vocabulary expert Marilee Sprenger presents the 25 essential words all students must know to succeed academically, along with strategies to teach them effectively. Winner of the 2013 AASECT Professional Book Award! *New Directions in Sex Therapy: Innovations and Alternatives* focuses on cutting-edge, therapy paradigms as alternatives to conventional clinical strategies. With each passing year, the treatment of sexual problems seems to emphasize more medical and pharmacological interventions. There is correspondingly less interest in the experiences of the individuals or couples involved. This book expands the definition of our field. Part I highlights the major problems and criticisms facing sex therapy and furnishes a rationale for new directions. Included in this new edition are critiques of "sexual addiction" nomenclature, the neglect of the ethical dimension in sex therapy, and there is a call to expand our vision of what sex therapy can attain. Part II demonstrates new approaches to dealing with traditional sex therapy concerns, including lack of desire and erectile dysfunction as well as innovative goals, such as integrating sexual medicine with sex therapy, using client feedback to customize therapy for the particular individual/couple's best interests, promoting relationship growth in working with transgender clients, and transcending sexual function/dysfunction to optimize erotic intimacy in long-term couples. This 2nd edition of *New Directions in Sex Therapy: Innovations and Alternatives* is replete with helpful new clinical illustrations across the spectrum of theoretical orientations (e.g., systemic, narrative, Experiential, CBT) to demonstrate these approaches in action. This book is intended for anyone who deals with sexual issues and concerns in therapy—clinicians of every kind, novices and advanced

practitioners—rather than only those who define themselves as sex therapists. This book offers an original interpretation of the traditional Maya and North American Medicine Wheels, as an aid for both spiritual growth, and for practical problem solving for the individual, business or other social organizations. She draws on these experiences to present the shamanic worldview and outlook of the Medicine Wheel.

WHAT IS THE STORY GRID? The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments. It's like a CT Scan that takes a photo of the global story and tells the editor or writer what is working, what is not, and what must be done to make what works better and fix what's not. The Story Grid breaks down the component parts of stories to identify the problems. And finding the problems in a story is almost as difficult as the writing of the story itself

(maybe even more difficult). The Story Grid is a tool with many applications: 1. It will tell a writer if a Story ?works? or ?doesn't work. 2. It pinpoints story problems but does not emotionally abuse the writer, revealing exactly where a Story (not the person creating the Story/the Story) has failed. 3. It will tell the writer the specific work necessary to fix that Story's problems. 4. It is a tool to re-envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer. 5. It is a tool that can inspire an original creation. What will you hear when you read this book to a preschool child? Lots of noise! Children will chant the rhythmic words. This volume brings together distinguished scholars to address broad societal claims about the surge in populist nationalism in the scholarly literature on collective memory. The book sets the stage by examining historical origins and case studies of populism and nationalism in the United States before exploring these phenomena in the global context. Next, the book establishes conceptual frameworks for approaching nationalism and populism in national narratives through the literature on collective memory, political psychology, history, and international studies. The book concludes with a discussion on common themes uncovered over the course of the book. Throughout each section, the book uses empirical evidence and conceptual claims to shed light on the rise in global populist nationalism in a thoughtful, comprehensive manner for scholars of a wide range of backgrounds. National Memories offers a multidisciplinary, modern approach to an old global societal challenge in a time of great political and social upheaval. "Lis Paice's positivity shines through on every page of this book. She writes in a beautifully simple and accessible style. The book will be a tremendous introduction for those setting out on the same path as new coaches, or for more experienced coaches who want to compare their journey with

hers." Dr John Launer, Honorary Consultant and Senior Clinical Lecturer at the Tavistock Clinic, London, UK "I love this book. I've not seen a book before that uses the experience of the one who is learning rather than just telling you how to do it. It will be so useful in taking away the inevitable anxiety that comes when you are about to learn a new skill - and learn it in public. The author's honesty about her own pitfalls will help you know what to expect, and the light bulb moments that she has as she progresses will undoubtedly light up the occasional bulb for you too. It might be a book about learning, but it's also a book that outlines the skills of coaching in a whole new way." Jenny Firth-Cozens, Imperial College London, UK "This is a marvellous record of the journey recorded by a senior doctor-educationalist as she strived to gain the skills of a coach. Any new coach will find it difficult to put down as it will resonate with many of their own first reflections. She is open about her mistakes from the start. On her first day of coach training she had a moment of kairos, and she set her goal to train to the highest level, which she continues to do." Dr Rebecca Viney, Coaching and Mentoring Lead, London Deanery, UK "There are many books on coaching that give advice on what coaches should do. This book is different. Describing herself as a 'self-critical learner', Liz traces her journey into becoming a coach, telling a uniquely honest story, 'warts and all' that all of us can learn from. This is like reading someone's personal, reflective diary, rather than a recipe book on 'how to coach'. The result is both engaging and highly illuminating." David E Gray, Professor of Leadership and Organisational Behaviour, University of Greenwich, UK You can't summarize if you haven't been listening. Coach and client share the encounter, not the experience. The better you get, the less you say. The client is the hero, not the coach. Coaching is a skill for life. This frank account of one leader's journey to become a coach is a must have for beginner coaches. It will strike a chord with anyone who has been on a similar journey or has just begun professional training, discovering the disappointments, triumphs and surprises of learning to coach and coming to their own personal insights. Lis Paice's easy conversational style and rich supply of real-life examples make this an enjoyable read even for the absolute beginner. The questions she raises about coaching will also stimulate reflection for experienced

coaches, trainers and supervisors. Topics include: What coaching is all about How coaching differs from other ways of helping What the role of the coach entails Getting to grips with the principles of coaching; Learning by experience why the rules matter Trying out different tools and techniques Finding ways of helping the client to new perspectives and insights Avoiding complacency Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms. Eighteen-year-old Conn leaves Ireland and sails to America, where he helps build the first Ferris wheel for the World's Columbian Exposition of 1893. *The Little Scarecrow Boy* is the lightest and brightest picture book from one of the most renowned children's writers ever: Margaret Wise Brown, author of *Goodnight Moon* and *The Runaway Bunny*. Caldecott winner David Diaz's illustrations burst with sunshine, and Brown's words reveal the quiet glory of a boy on the brink of growing up, full of curiosity and life. Ages 3 – 7 Your 2nd and 3rd graders will love learning the essentials of responding to literature with fun-filled activities such as Predict-and-Check Journal, Story-Spinner Wheel, and Scene-Setting Travel Brochures. Includes lessons and strategies for teaching students how to summarize a book's main ideas, focus on key elements, and offer and support opinions about the text. Students will also learn about presenting literature response in various formats and evaluating their own work. Plus a BIG, colorful poster with tips for writing "Juicy Book Reviews"! Book jacket. One in a million. Yes, that's how rare it is to have so many write-about-reading strategies so beautifully put to use. Each year Leslie Blauman guides her students to become highly skilled at supporting their thinking about texts, and in *Evidence-Based Writing: Fiction*, she shares her win-win process. Leslie combed the ELA standards and all her favorite books and built a lesson structure you can use in two ways: with

an entire text or with just the excerpts she's included in the book. Addressing Evidence, Character, Theme, Point of View, Visuals, Words and Structure, each section includes: Lessons you can use as teacher demonstrations or for guided practice, with Best the Test tips on how to authentically teach the skills that show up on exams with the texts you teach. Prompt Pages serve as handy references, giving students the key questions to ask themselves as they read any text and consider how an author's meaning and structure combine. Excerpts-to-Write About Pages feature carefully selected passages from novels, short stories, and picture books you already know and love and questions that require students to discover a text's literal and deeper meanings. Write-About-Reading Templates scaffold students to think about a text efficiently by focusing on its critical literary elements or text structure demands and help them rehearse for more extensive responses. Writing Tasks invite students to transform their notes into a more developed paragraph or essay with sufficiently challenging tasks geared for grades 6-8. And best of all, your students gain a confidence in responding to complex texts and ideas that will serve them well in school, on tests, and in any situation when they are asked: What are you basing that on? Show me how you know. The wheels push, race, stroll, fly, whiz, and spin all day long. This book challenges the reader to rethink and reimagine what diversity in language education means in transnational societies. Bringing together researchers and practitioners who contributed to the international LINGuistic and Cultural DIversity REinvented (LINCDIRE) project, the book examines four pillars of innovation in language education: the Action-oriented approach, Plurilingualism, Indigenous epistemologies and Technology enhanced learning. The book critically discusses plurilingual pedagogical approaches that draw on learners' linguistic and cultural repertoires to encourage and support the dynamic use of languages in curricular innovation. It is a fundamental resource for language teachers, curriculum designers and educational researchers interested in understanding current thinking on the relevance and benefit of a plurilingual paradigm shift for language education in today's societies. More specifically, this book: Examines the development of plurilingualism and the potential of real-life oriented teaching and learning. Explores the concept of plurilingual and pluricultural

competence. Focuses on collaboration and reflection from a humanistic tradition. Explores educational technology and explains the limitations and challenges of adopting ready-made tools. Highlights the iterative, design-based research process that informed the development of LINCDIRE's pedagogical framework and action-oriented scenarios. Introduces practical examples of action-oriented tasks and scenarios, and illustrates the online tool (LITE) in terms of its current functionalities and design. Describes the implementation challenges and opportunities of plurilingual action-oriented tasks and discusses the results of implementation. Finally, the book examines future pedagogical innovation and research directions in order to help readers reflect on the implications of achieving sustainable change in language education. This exciting collection addresses an important question in language education: How can plurilingualism and cultural diversity be harnessed to promote sustainable innovation in language learning and teaching? Readers will find contributions from the diverse authors timely, compelling, and engaging. — Dr. Bonny Norton, FRSC, University Killam Professor, UBC Dept. of Language & Literacy Education, Canada Embracing a design-based research framework, this book offers learners and teachers powerful validation and a rich, relatable and inspiring action-oriented approach to holistic, dynamic, mediated, embodied, true-to-life, plurilingual language teaching and learning. — Dr. Elka Todeva, Professor of Applied Linguistics, MATESOL Program / Advanced Seminar in Plurilingual Pedagogy, SIT Graduate Institute, Washington, D.C.
